

CASCADES TECHNOLOGIES SELECTS VARCOM SOLUTIONS FOR ITS MARKETING NEEDS

HERNDON, VA – May 31, 2005 — Following a rigorous search, Cascades Technologies, an Information Technology contractor to the U.S. government, selected VARCom Solutions to handle its marketing activities. Among other things, VARCom will conduct market research/analysis, develop marketing strategies, manage the re-launch of the company's website, and coordinate the firm's external communications, including advertising, media relations, and much more. Recently selected one of Virginia's Fantastic 50 (50 fastest growing companies), Cascades saw the need to hire a firm that could ensure the business continues to grow and bring the organization to the next level.

"We are very excited about our future", said Alfredo Casta, president of Cascades Technologies. "With VARCom's assistance, we are confident that our target audience will learn more about our commitment to quality, reliability and customer care. So far, we have been more than pleased with VARCom's support—we have been amazed".

VARCom Solutions' president, Raul Danny Vargas, added "We are proud to be part of the effort to keep Cascades Technologies a dynamic, innovative and growing enterprise. Since the start of the engagement, we have built a strong partnership and are already seeing results." Vargas continues, "We look forward to doing what is necessary to strive to make them even more successful. That is a commitment we have made to them as we have with all our clients"

About VARCom Solutions
